NEW OFFERS BILL FOR COMPULSORY MILITARY TRAINING

WASHINGTON, Jan. 31.—Universal, compulsory military training for American youths as a permanent national policy is proposed in a bill introduced in the Senate today by Senator New of Indiana, Republican. Such a policy, the Indiana Senator said, "provides the only guarantee against any occasion for the maintenance of a large regular army."

Training of not more than one year for all youths between nineteen and twenty-six years—limited to one continuous period and not divided from year to year—is provided by the bill, which was referred to the Senate Military Committee with a suggestion by Senator New that it be laid before the Army General Staff for a report at the next session of Congress.

Under the bill all youths upon completion of the training period, as fixed by the President, would go into a national reserve for call in case of necessity. Priority of service would be placed upon the youngest annual class. Asserting that misconceptions regarding universal training have arisen, Senator New said: "Universal training guarantees that the youth who is to be conscripted or who shall volunteer shall go prepared rather than that he shall be taken unprepared. It provides the only

guarantee against any occasion for the maintenance of a large regular army."

period required for his proper training. "We should at all times have something like 200,000 men capable of being officers."

In preparing his bill Senator New said he had conferred with military men in whose judgment he had confidence, but explained that his measure should be regarded only as the nucleus for legislation rather than a fixed feature.
